

JECKY SAMANI

Android Developer | Flutter Developer

Ahmedabad, India | +91-9904472193 | Jeckysamani11@gmail.com | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Android Developer with 4.5 years of mobile application development experience, including 4.5 years specializing in native Android development and 1 year of hands-on Flutter development. Experienced in building and delivering real-world mobile applications across diverse domains, including subscription-based platforms, referral and earning systems, point-of-sale and appointment management systems, and field-operations tools. Comfortable owning features end-to-end, from UI development to backend integration, across both native Android and cross-platform Flutter projects. Seeking to leverage strong Android expertise and growing Flutter proficiency to deliver scalable, high-quality mobile applications.

TECHNICAL SKILLS

Languages: Java, Kotlin, Dart

Mobile Development: Android (Native), Flutter, Android SDK, XML

APIs & Networking: RESTful API Integration, Retrofit, Volley

Firebase / Services: Firebase, Firebase Push Notifications, Firebase Chat, Google Maps API

Payment / Third-Party Integrations: Razorpay Payment Gateway

Database & Storage: SQLite, Shared Preferences

Tools & Platforms: Android Studio, Git, Atlassian JIRA

PROFESSIONAL EXPERIENCE

Xceptive Solutions LLP, Ahmedabad, India

May 2021 – Present

Android Developer | Android – 4.5 Years, Flutter – 1 Year

- Developed and maintained native Android applications (Java, Kotlin) and Flutter (Dart) cross-platform applications across multiple client and product domains.
- Integrated RESTful APIs using Retrofit and Volley to connect mobile applications with backend services.
- Implemented Firebase services including push notifications and in-app chat functionality.
- Integrated Razorpay payment gateway for subscription plans, payment validation, and in-app purchases.
- Implemented Google Maps API for location-based features.
- Used local data persistence with SQLite and Shared Preferences for offline and cached data handling.
- Collaborated using Git for version control and Atlassian JIRA for agile task tracking.

KEY PROJECTS

UrbanCook | Flutter | Cook Discovery & Subscription Platform

- Built a Flutter-based platform enabling users to discover and connect with cooks based on category and location.

- Integrated Razorpay subscription plans and payment validation to gate access to premium features, including direct calling to cooks.

Rozgar Sathi | Flutter | Maid Referral & Earning Platform

- Developed a Flutter-based referral platform allowing users to refer maids and earn referral-based incentives.
- Implemented referral tracking, earnings and wallet management, and bank withdrawal functionality.
- Built multilingual support along with referral history, earning history, testimonials, and How It Works sections.

The Crazy Beauty POS | Android | POS & Appointment Management

- Developed a user-friendly Android POS system streamlining appointment bookings, client management, and bill printing.
- Implemented automatic cash drawer functionality triggered after receipt printing.

Play Store: <https://play.google.com/store/apps/details?id=com.androidapp.tcb.pos&hl=en>

TenSquare | Android | Exam Preparation

- Built an educational Android app for 10th-grade students offering notes, practice tests, previous-year question papers, and question banks.
- Enabled downloadable and shareable content with support for two languages.

Play Store: <https://play.google.com/store/apps/details?id=com.app.tensquare&hl=en>

KOnverge Now | Android | Coca-Cola India

- Developed a custom Android app for Coca-Cola India to support a cricket league launch, enabling user registration and championship participation.
- Captured daily sales and market activity data and displayed regional performance on a leaderboard.

GC Merchandising | Android | Field Operations

- Built an Android field-operations app for a chicken factory supporting Merchant and Supervisor roles across multiple outlets.
- Implemented store visit tracking, stock/expiry reporting, automated time tracking, trip assignment, completion monitoring, and reassignment of rejected trips.

Laddoo | Android | Dating Platform

- Developed an online dating Android app supporting user profiles, friend requests, swiping, likes, super likes, and mutual matching with real-time notifications.

BookMyBai | Android | Household Hiring Platform

- Built an Android app connecting users to household job opportunities (cleaner, cook roles) and enabling employers to hire for these roles.

EDUCATION

B.E., Computer Engineering — Marwadi University (GTU), Rajkot, Gujarat | 2017 – 2021 | CGPA: 8.30

Schooling — Shree Sandipani Vidhya Sankul, Dhoraji, Gujarat | 2015 – 2017 | 71%
